We also provide services for:

Road Tanker Trucks: load, discharge, cleanliness, condition.

Other vessel services: bunkering, cleanliness on/off hire.

Other terminal services: cleanliness, condition, tank transfers.

Calibration Services: Shore tanks, meters, vessels tanks (via QQ Lagos)

Condition surveys: various materials.

The above table and listing only covers key services. Please contact the office concerned for any additional service requirement that you may have. Testing capabilities vary from key testing to full testing.

Where full testing is not available at our facility, any balance testing can be arranged at other local laboratories and/or overseas laboratories.

This is applicable to both non hazardous and hazardous goods, and our offices can advise you appropriately to any testing enquiry you have.

International Inspection/Testing Standards:

API, HM, ASTM, IP, ISO, UOP, AFNOR
